Contributing to Secure, Stable, and Resilient Internet

Capacity Development

- DNS Management
- DNS Security
- KSK Rollover

L-Root Deployment

- Myanmar – Yangon & Mandalay
- Federated States of Micronesia

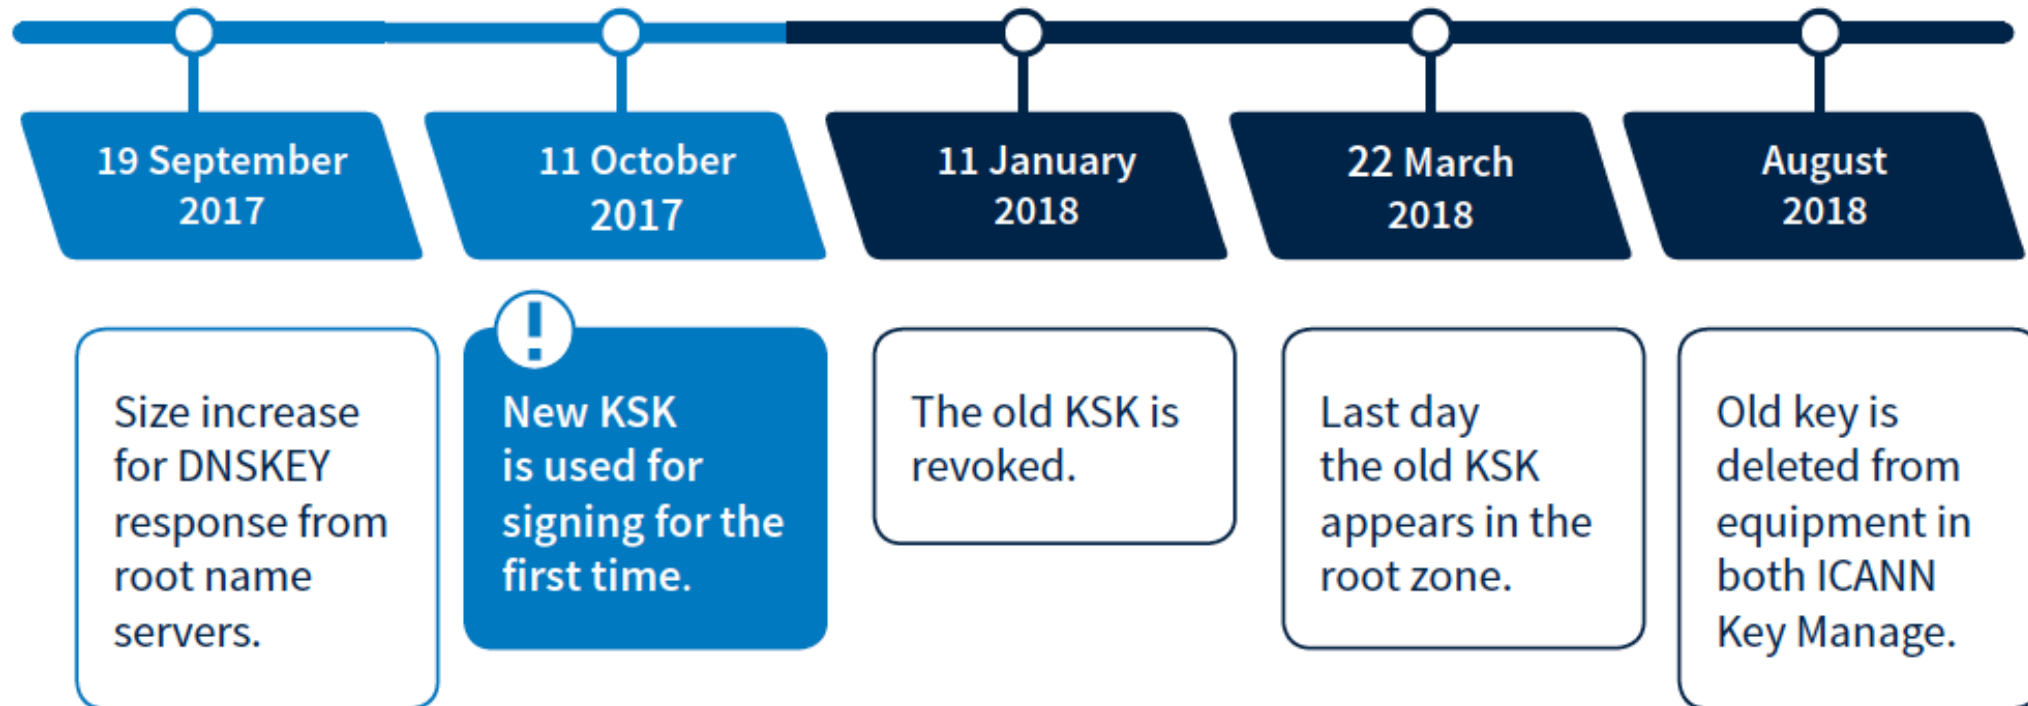

DNSSEC Deployment

- Singapore (.SG)
- Vietnam (.VN)

When Does the Rollover Take Place?

The KSK rollover is a process, not a single event

The following dates are key milestones in the process when end users may experience interruption in Internet services:

Who Will Be Impacted?

DNS Software
Developers &
Distributors

System
Integrators

Network
Operators

Root Server
Operators

Internet
Service
Providers

End Users
*(if no action taken by
resolver operators)*

What Do Operators Need to Do?

Be aware whether DNSSEC is enabled in your servers

Be aware of how trust is evaluated in your operations

Test/verify your set ups

Inspect configuration files, are they (also) up to date?

If DNSSEC validation is enabled or planned in your system

- Have a plan for participating in the KSK rollover
- Know the dates, know the symptoms, solutions
