2014 – 2024

The Internet Governance Forum (IGF) brings people together from all stakeholder groups as equals, in discussions on issues relating to the Internet and digital policy processes. The IGF is inclusive and anyone can participate.

The Internet Governance Forum Support Association (IGFSA) is set up to support the IGF and the national, regional, sub-regional and youth initiatives (NRIs). **2024 is the 10th year since its establishment.** The goal of the IGFSA is to provide stable and sustainable support for the IGF Secretariat and to fund related activities. With the WSIS+20 review next year in 2025, it is now more important than ever to support the IGF.

Join us!

By joining the IGFSA, you will

- Help **strengthen the IGF** as a unique platform for all stakeholders to openly exchange perspectives and concerns on key issues affecting the future of the Internet.
- Help **support the IGF Secretariat** via the IGF Trust Fund, and IGF intersessional work by increasing accessibility support.
- **Support national, regional, sub-regional and youth initiatives** with seed funding so they can hold their annual meetings. The NRI network has now grown to 170+ initiatives in 2024.
